वर्गीकरण Classification

वर्गीकरण से संबंधित इस अध्याय में, हम असंगत को अलग करने से संबंधित प्रकार के प्रश्नों को हल करते हैं। ऐसे प्रश्नों में, हमें आकृतियों का एक सेट दिया जाता है, इस प्रकार से कि उनमें से एक को छोड़कर सभी एक जैसी विशेषताएँ/गुण दर्शाती हैं। हमें उस आकृति का चयन करना होता है जो दिए गए सेट में अन्य सभी आकृतियों से अलग है। वर्गीकरण पर आधारित कई अन्य प्रकार की समस्याओं पर भी इस अध्याय में विस्तार से चर्चा की गई है।

In this chapter on classification, we deal with the types of questions related to the separation of the incompatible. In such questions, we are given a set of figures, in such a way that all except one of them show the same characteristics/properties. We have to select the figure which is different from all the other figures in the given set. Many other types of problems based on classification are also discussed in detail in this chapter.

निर्देश (1-30) :- प्रत्येक प्रश्न में, दी गयी चार क्रमांकित आकृतियों (a), (b), (c) और (d) में से तीन एक निश्चित तरीके से समान हैं। हालांकि, एक आकृति अन्य तीन की तरह नहीं है। वह आकृति चुनें जो बाकी से अलग हो।

Directions (1-30) :- In each question, three of the given four numbered figures (a), (b), (c) and (d) are alike in a certain way. However, one figure is not like the other three. Choose the shape that stands out from the rest.
